

TuffCorr™ Pallets

High-strength corrugate pallets, made with the patented MaxCorr™ process.

TuffCorr™ Pallets are a line of corrugate pallets produced by qualified licensees using the patented MaxCorr™ process. Licensed producers build them to the customer's size and load requirements.

Benefits

- ✓ **Lightweight.** Depending on the model, up to about 75% lighter than wood, for easier handling and freight savings.
- ✓ **Strong.** Depending on the model, rated to 35,000+ lbs. static load, adjustable to the application. Tested under ASTM D1185, the standard test methods for pallets.
- ✓ **Safe.** No nails, splinters, splinters or broken boards, for improved personnel safety and lower product damage.
- ✓ **Customizable.** Non-standard sizes without a labor penalty, up to 124 x 66 inches.
- ✓ **Recyclable and export ready.** 100% recyclable and repulpable. Exempt from ISPM-15 heat treatment.*

Sample custom sizes (inches): 48 x 40, 45 x 45, 49 x 49, 51 x 51, 63 x 44, 67 x 42, 76 x 42, 88 x 64, 100 x 40, 30 x 24, 24 x 24, 18 x 16

TuffCorr™ pallet carrying a bulk bag on a floor scale.

AT A GLANCE

WEIGHT

Up to about 75%
lighter than wood
depending on the model

STATIC LOAD

Models rated to
35,000+ lbs.
ASTM D1185 tested

CUSTOM SIZES

Up to 124 x 66 in.

EXPORT

Exempt from ISPM-15
heat treatment*

How it's made

Qualified licensees start with corrugated board, convert it into engineered components, and assemble them into finished TuffCorr™ pallets configured for the load they need to carry, all with the patented MaxCorr™ process. The same process supports standard and non-standard sizes, so a custom size does not carry a labor penalty.

Looking for TuffCorr™ pallets, or want to produce them under license?

We'll connect you with a licensed producer. See the full product line at <https://tggtec.com/products/>.
